

International climate finance – Loss and damage	
Party:	Australian Greens
Summary of proposal: The proposal would provide \$9 billion over 10 years as a contribution to climate finance to support those nations facing loss and damage. The proposal would be ongoing, distribute funding evenly over 10 years, include departmental funding within the cap, and would start from 1 July 2026.	

Costing overview

The proposal would be expected to decrease the fiscal and underlying cash balances by \$2.7 billion over the 2025-26 Budget forward estimates period (see Table 1). This impact reflects an increase in administered expenses.

The proposal would be expected to have an impact beyond the 2025-26 Budget forward estimates period. A breakdown of the financial implications (including separate public debt interest (PDI) tables) over the period to 2035-36 is provided at Attachment A.

The Parliamentary Budget Office (PBO) has not made any assessment as to whether the specified funding would be sufficient to meet the objectives of the proposal.

Table 1: International climate finance – Loss and damage – Financial implications (\$m)^{(a)(b)}

	2025-26	2026-27	2027-28	2028-29	Total to 2028-29
Fiscal balance	-	-900.0	-900.0	-900.0	-2,700.0
Underlying cash balance	-	-900.0	-900.0	-900.0	-2,700.0

(a) A positive number represents an increase in the relevant budget balance; a negative number represents a decrease.

(b) PDI impacts are not included in the totals.

- Indicates nil.

Key assumptions and methodology

The proposal is capped at a fixed amount, evenly distributed over 10 years from the commencement date. Departmental costs are assumed to be small and able to be absorbed by the relevant department, as funding is assumed to be contributed to the United Nations Loss and Damage Fund. Administered expenses are as specified in the proposal. We assume no funds allocated to a given year are left unspent.

Financial implications were rounded consistent with the PBO's rounding rules.¹

- (a) A positive number for the fiscal balance indicates an increase in revenue or a decrease in expenses or net capital investment in accrual terms. A negative number for the fiscal balance indicates a decrease in revenue or an increase in expenses or net capital investment in accrual terms. A positive number for the underlying cash balance indicates an increase in receipts or a decrease in payments or net capital investment in cash terms. A negative number for the underlying cash balance indicates a decrease in receipts or an increase in payments or net capital investment in cash terms.
- Indicates nil.

- (a) As this table is presented as a memorandum item, these figures are not reflected in the totals above. This is consistent with the approach taken in the budget where the budget impact of most measures is presented excluding the impact on PDI. If the reader would like a complete picture of the total aggregate, then these figures would need to be added to the figures above.
