

ECR-2025-1299

Strengthening community safety						
Party:	Australian Labor Party					

Summary of proposal:

The proposal would provide grant funding of \$15.2 million over 2 years to local governments for the installation of new CCTV cameras. The funding would strengthen community safety by deterring criminal activities and providing real-time surveillance and evidence for law enforcement.

The funding profile would be distributed as \$6.2 million in 2025-26 and \$9.0 million in 2026-27. The local government areas that would receive grants under this proposal are listed in Attachment B.

The proposal would be non-ongoing and start from 1 July 2025.

Costing overview

The proposal would be expected to decrease the fiscal and underlying cash balances by around \$16.2 million over the 2025-26 Budget forward estimates period (see Table 1). This impact reflects an increase in administered and departmental expenses.

The proposal would not be expected to have an impact beyond the 2025-26 Budget forward estimates period, other than for public debt interest (PDI) costs. A breakdown of the financial implications (including separate PDI tables) over the period to 2035-36 is provided at Attachment A.

The Parliamentary Budget Office (PBO) has not made any assessment as to whether the specified funding would be sufficient to meet the objectives of the proposal.

Underlying cash balance	-6.7	-9.5	-	-	-16.2

⁽a) A positive number represents an increase in the relevant budget balance; a negative number represents a decrease.

Key assumptions and methodology

The proposal is capped at a fixed amount, distributed over 2 years from the commencement date as specified. Departmental expenses were estimated based on the cost of administering similar programs and are assumed to be in addition to the capped funding amount. Administered expenses are as specified in the proposal. We assume that no funds allocated to a given year are left unspent.

⁽b) PDI impacts are not included in the totals.

⁻ Indicates nil.

Financial implications were rounded consistent with the PBO's rounding rules.¹ Data sources Commonwealth of Australia (2025) Pre-election Economic and Fiscal Outlook 2025, Commonwealth of Australia. Departmental expenses were informed by similar measures in the Commonwealth budgets from 2015-16 to 2021-22.
