

Crime Stoppers	
Party:	Australian Labor Party
<p>Summary of proposal:</p> <p>The proposal would provide \$5 million over 3 years to Crime Stoppers Australia to support operational and community engagement efforts.</p> <p>The funding would help maintain Crime Stoppers' national operations and strengthen its ability to lead campaigns targeting priority crime issues – including illicit drugs, organised crime and technology-enabled crime.</p> <p>The proposal would be non-ongoing, distribute funding evenly over 3 years, and start from 1 July 2025.</p>	

## Costing overview

The proposal would be expected to decrease the fiscal and underlying cash balances by around \$5 million over the 2025-26 Budget forward estimates period (see Table 1). This impact reflects an increase in administered expenses.

The proposal would not be expected to have an impact beyond the 2025-26 Budget forward estimates period, other than for public debt interest (PDI) costs. A breakdown of the financial implications (including separate PDI tables) over the period to 2035-36 is provided at Attachment A.

The Parliamentary Budget Office (PBO) has not made any assessment as to whether the specified funding would be sufficient to meet the objectives of the proposal.

**Table 1: Crime Stoppers – Financial implications (\$m)<sup>(a)(b)</sup>**

	2025-26	2026-27	2027-28	2028-29	Total to 2028-29
Fiscal balance	-1.6	-1.7	-1.7	-	-5.0
Underlying cash balance	-1.6	-1.7	-1.7	-	-5.0

(a) A positive number represents an increase in the relevant budget balance; a negative number represents a decrease.

(b) PDI impacts are not included in the totals.

- Indicates nil.

## Key assumptions and methodology

The proposal is capped at a fixed amount, evenly distributed over 3 years from the commencement date. As funding would be provided to Crime Stoppers directly, departmental costs would not be significant and be absorbed by the relevant department. Administered costs are as specified. We assume that no funds allocated to a given year are left unspent.

Financial implications were rounded consistent with the PBO's rounding rules.<sup>1</sup>
