

CareFlight	
Party:	Australian Labor Party
Summary of proposal: The proposal would provide \$10.1 million to CareFlight in 2025-26 to purchase a plane for aeromedical retrievals to support medical evacuations and transportation in the Top End (Northern Territory). The proposal is non-ongoing and would commence on 1 July 2025.	

Costing overview

The proposal would be expected to decrease the fiscal and underlying cash balances by around \$10.1 million over the 2025-26 Budget forward estimates period (see Table 1). This impact reflects an increase in administered expenses.

The proposal would not be expected to have an impact beyond the 2025-26 Budget forward estimates period, other than for public debt interest (PDI) impacts. A breakdown of the financial implications (including separate PDI tables) over the period to 2035-36 is provided at Attachment A.

The Parliamentary Budget Office (PBO) has not made any assessment as to whether the specified funding would be sufficient to meet the objectives of the proposal.

Table 1: CareFlight – Financial implications (\$m)^{(a)(b)}

	2025-26	2026-27	2027-28	2028-29	Total to 2028-29
Fiscal balance	-10.1	-	-	-	-10.1
Underlying cash balance	-10.1	-	-	-	-10.1

(a) A positive number represents an increase in the relevant budget balance; a negative number represents a decrease.

(b) PDI impacts are not included in the totals.

- Indicates nil.

Key assumptions and methodology

The proposal is capped at a fixed amount in 2025-26 as specified. As funding would be provided to CareFlight directly, departmental costs would not be significant, and these would be absorbed by the relevant department. Administered costs are as specified. We assume that no funds allocated are left unspent.

Financial implications were rounded consistent with the PBO's rounding rules.¹

- (a) As this table is presented as a memorandum item, these figures are not reflected in the totals above. This is consistent with the approach taken in the budget where the budget impact of most measures is presented excluding the impact on PDI. If the reader would like a complete picture of the total aggregate, then these figures would need to be added to the figures above.
