| Party: The Coalition   |  |  |  |  |  |  |  |  |  |
| Summary of proposal:   |  |  |  |  |  |  |  |  |  |
| The proposal would double the funding provided to the Australian Centre to Counter Child Exploitation (ACCCE). |  |  |  |  |  |  |  |  |  |
| The proposal would be ongoing and start on 1 July 2025.  |  |  |  |  |  |  |  |  |  |

## Costing overview

The proposal would be expected to decrease the fiscal and underlying cash balances by around \$133 million over the 2025-26 Budget forward estimates period (see Table 1). This impact reflects an increase in departmental expenses.

The proposal would be expected to have an impact beyond the 2025-26 Budget forward estimates period. A breakdown of the financial implications (including separate public debt interest (PDI) tables) over the period to 2035-36 is provided at Attachment A.

## Key assumptions and Methodology

The PBO has made the following assumptions in costing this proposal.

- The ongoing baseline departmental funding of the ACCCE in the absence of the proposal would be indexed to Wage Cost Index 3 less an efficiency dividend.
- The financial impact of the policy was estimated based on the difference between the cost of doubling the funding and the baseline.

Financial implications were rounded consistent with the PBO's rounding rules.<sup>1</sup>

<sup>(</sup>b) PDI impacts are not included in the totals.

<sup>(</sup>a) As this table is presented as a memorandum item, these figures are not reflected in the totals above. This is consistent with the approach taken in the budget where the budget impact of most measures is presented excluding the impact on PDI. If the reader would like a complete picture of the total aggregate, then these figures would need to be added to the figures above.
