

Next Stages of Creutzfeldt–Jakob disease longitudinal study

Party: The Coalition

Summary of proposal:

The proposal would provide \$270,000 over 2 years to progress research into Creutzfeldt–Jakob disease (CJD), with the CJD Support Group Network leading the research.

The funding would be distributed as \$175,000 in 2027-28 and \$95,000 in 2028-29.

The proposal would be non-ongoing and would start from 1 July 2027.

Costing overview

The proposal would be expected to decrease the fiscal and underlying cash balances by around \$0.3 million over the 2025-26 Budget forward estimates period (see Table 1). This impact reflects an increase in administered expenses.

The proposal would not be expected to have an impact beyond the 2025-26 Budget forward estimates period, other than for public debt interest (PDI) costs. A breakdown of the financial implications (including separate PDI tables) over the period to 2035-36 is provided at Attachment A.

The Parliamentary Budget Office (PBO) has not made any assessment as to whether the specified funding would be sufficient to meet the objectives of the proposal.

Table 1: Next Stages of Creutzfeldt–Jakob disease longitudinal study – Financial implications (\$m)^{(a)(b)}

	2025-26	2026-27	2027-28	2028-29	Total to 2028-29
Fiscal balance	-	-	-0.2	-0.1	-0.3
Underlying cash balance	-	-	-0.2	-0.1	-0.3

(a) A positive number represents an increase in the relevant budget balance; a negative number represents a decrease.

(b) PDI impacts are not included in the totals.

- Indicates nil.

Key assumptions and methodology

The proposal is capped at a fixed amount, distributed over 2 years from the commencement date as specified. Departmental expenses associated with providing funding for CJD research, led by the CJD Support Group Network, are expected to be small and are assumed to be absorbed within existing resources of the relevant department. Administered expenses are as specified. We assume that no funds allocated to a given year are left unspent.

Financial implications were rounded consistent with the PBO's rounding rules.¹

- (a) As this table is presented as a memorandum item, these figures are not reflected in the totals above. This is consistent with the approach taken in the budget where the budget impact of most measures is presented excluding the impact on PDI. If the reader would like a complete picture of the total aggregate, then these figures would need to be added to the figures above.
