

Support for Disaster Relief Australia for a National Veterans Volunteer Program	
Party:	The Coalition
Summary of proposal: The proposal would provide \$64.5 million over 3 years to Disaster Relief Australia so it can continue the National Veteran Volunteer Program (NVVP) across Australia. The proposal would be non-ongoing, distribute funding evenly over 3 years and start on 1 July 2026.	

Costing overview

The proposal would be expected to decrease the fiscal and underlying cash balances by \$64.5 million over the 2025-26 Budget forward estimates period (see Table 1). This impact reflects an increase in administered expenses.

The proposal would not be expected to have an impact beyond the 2025-26 Budget forward estimates period, other than for public debt interest (PDI) impacts. A breakdown of the financial implications (including separate PDI tables) over the period to 2035-36 is provided at Attachment A.

The Parliamentary Budget Office (PBO) has not made any assessment as to whether the specified funding would be sufficient to meet the objectives of the proposal.

Table 1: Support for Disaster Relief Australia for a National Veterans Volunteer Program – Financial implications (\$m)^{(a)(b)}

	2025-26	2026-27	2027-28	2028-29	Total to 2028-29

Underlying cash balance	-	-21.5	-21.5	-21.5	-64.5

(a) A positive number represents an increase in the relevant budget balance; a negative number represents a decrease.

(b) PDI impacts are not included in the totals.

- Indicates nil.

Key assumptions and methodology

The proposal is capped at a fixed amount, evenly distributed over 3 years from the commencement date. Departmental expenses associated with providing funding to Disaster Relief Australia are expected to be small and are assumed to be absorbed within existing resources of the relevant department. Administered expenses are as specified in the proposal. We assume that no funds allocated to a given year are left unspent.

Financial implications were rounded consistent with the PBO's rounding rules.¹
