

Funding to increase aged care access and raise care standards	
Party:	Australian Greens
<p>Summary of proposal:</p> <p>The proposal would provide \$150 million per year in funding (\$1.5 billion over the medium term) to implement a human rights-based approach to ensure all older Australians receive high-quality care when needed, with funding for the following priorities:</p> <ul style="list-style-type: none"><li>• enhance the aged care workforce by providing low-cost and accessible pathways to qualifications for aged care workers and implementing a national registration scheme for all personal care workers, ensuring high-quality care for older Australians</li><li>• improve accountability and transparency in aged care by strengthening governance requirements and enforcing stronger whistleblower protections to protect both residents and workers</li><li>• improve access to allied health services, in-home and residential care, outreach support, companion pets, and assistive technology to ensure older people receive holistic care</li><li>• raise care standards by implementing minimum worker requirements and making aged care rights legally enforceable, ensuring dignity and respect for every individual.</li></ul> <p>The proposal would be ongoing, not indexed, include departmental funding from within the capped amount and start from 1 July 2026.</p>	

## Costing overview

The proposal would be expected to decrease the fiscal and underlying cash balances by around \$450 million over the 2025-26 Budget forward estimates period (see Table 1). This impact reflects an increase in administered and departmental expenses.

The proposal would be expected to have an impact beyond the 2025-26 Budget forward estimates period. A breakdown of the financial implications (including separate public debt interest (PDI) tables) over the period to 2035-36 is provided at Attachment A.

The Parliamentary Budget Office (PBO) has not made any assessment as to whether the specified funding would be sufficient to meet the objectives of the proposal.

**Table 1: Funding to increase aged care access and raise care standards – Financial implications (\$m)<sup>(a)(b)</sup>**

	2025-26	2026-27	2027-28	2028-29	Total to 2028-29
Fiscal balance	-	-150.0	-150.0	-150.0	-450.0
Underlying cash balance	-	-150.0	-150.0	-150.0	-450.0

(a) A positive number represents an increase in the relevant budget balance; a negative number represents a decrease.

(b) PDI impacts are not included in the totals.

- Indicates nil.

## Key assumptions and methodology

The proposal is capped at a fixed amount, provided annually from the commencement date. Departmental expenses were estimated based on the cost of administering similar programs and are included within the capped funding amount. Administered expenses are as specified in the proposal, less expected departmental expenses. We assume that no funds allocated to a given year are left unspent.

Financial implications were rounded consistent with the PBO's rounding rules.<sup>1</sup>

Departmental expenses were informed by similar measures in the Commonwealth budgets from 2015-16 to 2021-22.

(a) As this table is presented as a memorandum item, these figures are not reflected in the totals above. This is consistent with the approach taken in the budget where the budget impact of most measures is presented excluding the impact on PDI. If the reader would like a complete picture of the total aggregate, then these figures would need to be added to the figures above.
