

End Australia's epidemic of violence against women and children – Expand the Staying Home, Leaving Violence program

Party: Australian Greens

Summary of proposal:

The proposal would provide \$250 million per year over 5 years to states and territories to expand the Staying Home, Leaving Violence program.

The proposal would be non-ongoing and start from 1 July 2025.

Costing overview

The proposal would be expected to decrease the fiscal and underlying cash balances by around \$1 billion over the 2025-26 Budget forward estimates period (see Table 1). This impact reflects an increase in administered expenses.

The proposal would be expected to have an impact beyond the 2025-26 Budget forward estimates period. A breakdown of the financial implications (including separate public debt interest (PDI) tables) over the period to 2035-36 is provided at Attachment A.

The Parliamentary Budget Office (PBO) has not made any assessment as to whether the specified funding would be sufficient to meet the objectives of the proposal.

(a) A positive number represents an increase in the relevant budget balance; a negative number represents a decrease.

(b) PDI impacts are not included in the totals.

Key assumptions and Methodology

The proposal is capped at a fixed annual amount, distributed evenly over 5 years from the commencement date. Departmental expenses associated with providing funding to expand the Staying Home, Leaving Violence program are expected to be small and are assumed to be absorbed within existing resources of the relevant department. Administered expenses are as specified. It is assumed that no funds allocated to a given year are left unspent.

Financial implications were rounded consistent with the PBO's rounding rules.¹

Data sources

Departmental expenses were informed by similar measures in the Commonwealth budgets from 2015-16 to 2021-22.
