

Maintain core funding of \$56 million for marine park operations	
Party:	Australian Greens
Summary of proposal: The proposal would provide \$56 million over 4 years to Parks Australia to continue core funding for marine parks. This would cover marine park operations, enforcement, compliance, and statutory reviews. The proposal would be non-ongoing, distribute funding evenly over 4 years, and start on 1 July 2026.	

Costing overview

The proposal would be expected to decrease the fiscal and underlying cash balances by \$42 million over the 2025-26 Budget forward estimates period (see Table 1). This impact reflects an increase in departmental expenses.

The proposal would be expected to have an impact beyond the 2025-26 Budget forward estimates period. A breakdown of the financial implications (including separate public debt interest (PDI) tables) over the period to 2035-36 is provided at Attachment A.

The Parliamentary Budget Office (PBO) has not made any assessment as to whether the specified funding would be sufficient to meet the objectives of the proposal.

Table 1: Maintain core funding of \$56 million for marine park operations – Financial implications (\$m)^{(a)(b)}

	2025-26	2026-27	2027-28	2028-29	Total to 2028-29
Fiscal balance	-	-14.0	-14.0	-14.0	-42.0
Underlying cash balance	-	-14.0	-14.0	-14.0	-42.0

(a) A positive number represents an increase in the relevant budget balance; a negative number represents a decrease.

(b) PDI impacts are not included in the totals.

- Indicates nil.

Key assumptions and methodology

The proposal is capped at a fixed amount, evenly distributed over 4 years from the commencement date. All funding is departmental in nature. We assume that no funds allocated to a given year are left unspent.

Financial implications were rounded consistent with the PBO's rounding rules.¹

(a) As this table is presented as a memorandum item, these figures are not reflected in the totals above. This is consistent with the approach taken in the budget where the budget impact of most measures is presented excluding the impact on PDI. If the reader would like a complete picture of the total aggregate, then these figures would need to be added to the figures above.
