

Ban the import of goods produced by forced labour	
Party:	Australian Greens
Summary of proposal:  The proposal would legislate a ban on the importation of products into Australia which have been produced using forced labour, and provide \$10 million in additional funding per year to relevant Australian Public Service agencies to implement the ban.  The proposal would be ongoing, not be indexed and start from 1 July 2026.	

## Costing overview

The proposal would be expected to decrease the fiscal and underlying cash balances by \$30 million over the 2025-26 Budget forward estimates period (see Table 1). This impact reflects an increase in departmental expenses.

The proposal would be expected to have an impact beyond the 2025-26 Budget forward estimates period. A breakdown of the financial implications (including separate public debt interest (PDI) tables) over the period to 2035-36 is provided at Attachment A.

The Parliamentary Budget Office (PBO) has not made any assessment as to whether the specified funding would be sufficient to meet the objectives of the proposal.

**Table 1: Ban the import of goods produced by forced labour – Financial implications (\$m)<sup>(a)(b)</sup>**

	2025-26	2026-27	2027-28	2028-29	Total to 2028-29
Fiscal balance	-	-10.0	-10.0	-10.0	-30.0
Underlying cash balance	-	-10.0	-10.0	-10.0	-30.0

(a) A positive number represents an increase in the relevant budget balance; a negative number represents a decrease.

(b) PDI impacts are not included in the totals.

- Indicates nil.

## Key assumptions and methodology

The proposal is capped at a fixed annual amount from the commencement date. Departmental expenses are as specified in the proposal. We assume no funds allocated to a given year are left unspent.

Financial implications were rounded consistent with the PBO's rounding rules.<sup>1</sup>
