

National Disaster Response Unit	
Party:	Australian Greens
<p>Summary of proposal:</p> <p>The proposal would provide \$500 million over the medium term, to create a National Disaster Response Unit with rapid-deployment aircraft and crews to respond quickly to floods, fires and remote rescues, and assist with humanitarian disaster relief across the Asia-Pacific region.</p> <p>Funding for this proposal would include an initial \$375 million (in 2026-27) for capital costs and \$50 million per year for the unit's ongoing costs. The ongoing costs would be indexed to the Consumer Price Index (CPI).</p> <p>The proposal would start from 1 July 2026.</p>	

Costing overview

The proposal would be expected to decrease the fiscal and underlying cash balances by around \$529 million over the 2025-26 Budget forward estimates period (see Table 1). This impact reflects an increase in departmental expenses.

The proposal would be expected to have an impact beyond the 2025-26 Budget forward estimates period. A breakdown of the financial implications (including separate public debt interest (PDI) tables) over the period to 2035-36 is provided at Attachment A.

The Parliamentary Budget Office (PBO) has not made any assessment as to whether the specified funding would be sufficient to meet the objectives of the proposal.

Table 1: National Disaster Response Unit – Financial implications (\$m)^{(a)(b)}

	2025-26	2026-27	2027-28	2028-29	Total to 2028-29
Fiscal balance	-	-425.0	-51.0	-53.0	-529.0
Underlying cash balance	-	-425.0	-51.0	-53.0	-529.0

(a) A positive number represents an increase in the relevant budget balance; a negative number represents a decrease.

(b) PDI impacts are not included in the totals.

- Indicates nil.

Key assumptions and methodology

The proposal is capped at a fixed amount in 2026-27, with the ongoing component of \$50 million indexed to CPI each year thereafter. Departmental expenses are as specified. We assume that no funds allocated to a given year are left unspent.

Financial implications were rounded consistent with the PBO's rounding rules.¹

- (a) As this table is presented as a memorandum item, these figures are not reflected in the totals above. This is consistent with the approach taken in the budget where the budget impact of most measures is presented excluding the impact on PDI. If the reader would like a complete picture of the total aggregate, then these figures would need to be added to the figures above.
