

\$1.5 billion for stronger environmental laws

Party: Australian Greens

Summary of proposal:

The proposal would provide \$1.5 billion over 10 years to strengthen environmental laws and establish a national environmental protection agency.

The proposal would be non-ongoing, distribute funding evenly over 10 years and start from 1 July 2025.

Costing overview

The proposal would be expected to decrease the fiscal and underlying cash balances by around \$600 million over the 2025-26 Budget forward estimates period (see Table 1). This impact reflects an increase in departmental expenses.

The proposal would be expected to have an impact beyond the 2025-26 Budget forward estimates period. A breakdown of the financial implications (including separate public debt interest (PDI) tables) over the period to 2035-36 is provided at Attachment A.

The Parliamentary Budget Office (PBO) has not made any assessment as to whether the specified funding would be sufficient to meet the objectives of the proposal.

Table 1: \$1.5 billion for stronger environmental laws – Financial implications (\$m)^{(a)(b)}

	2025-26	2026-27	2027-28	2028-29	Total to 2028-29
Fiscal balance	-150.0	-150.0	-150.0	-150.0	-600.0
Underlying cash balance	-150.0	-150.0	-150.0	-150.0	-600.0

(a) A positive number represents an increase in the relevant budget balance; a negative number represents a decrease.

(b) PDI impacts are not included in the totals.

Key assumptions and methodology

The proposal is capped at a fixed amount, not indexed, and evenly distributed over 10 years from the commencement date. All funding is departmental in nature. We assume that no funds allocated to a given year are left unspent.

Financial implications were rounded consistent with the PBO's rounding rules.¹

- (a) As this table is presented as a memorandum item, these figures are not reflected in the totals above. This is consistent with the approach taken in the budget where the budget impact of most measures is presented excluding the impact on PDI. If the reader would like a complete picture of the total aggregate, then these figures would need to be added to the figures above.
