

Women's health - menopause awareness campaigns	
Party:	Australian Greens
<p>Summary of proposal:</p> <p>The proposal would provide \$5 million over 4 years to deliver a national education campaign on menopause and perimenopause.</p> <p>This would focus on educating GPs through an accredited training program, to ensure they are well-equipped to support their patients, as well as raising public awareness about menopause symptoms and treatment options to reduce stigma and encourage open conversations.</p> <p>The proposal would be non-ongoing, distribute funding evenly over 4 years, and start from 1 July 2026.</p>	

Costing overview

The proposal would be expected to decrease the fiscal and underlying cash balances by around \$3.8 million over the 2025-26 Budget forward estimates period (see Table 1). This impact reflects an increase in departmental expenses.

The proposal would be expected to have an impact beyond the 2025-26 Budget forward estimates period. A breakdown of the financial implications (including separate public debt interest (PDI) tables) over the period to 2035-36 is provided at Attachment A.

The Parliamentary Budget Office (PBO) has not made any assessment as to whether the specified funding would be sufficient to meet the objectives of the proposal.

Key assumptions and methodology

The proposal is capped at a fixed amount, evenly distributed over 4 years from the commencement date. All funding is departmental in nature. We assume that no funds allocated to a given year are left unspent.

Financial implications were rounded consistent with the PBO's rounding rules.¹
