

Healthy oceans – Sustainable fisheries – Publish Commonwealth fisheries survey	
Party:	Australian Greens
Summary of proposal:  The proposal would provide \$2 million over 4 years to survey and publish measures of net economic returns for all Commonwealth fisheries.  The proposal would be non-ongoing, distribute funding evenly over 4 years and start on 1 July 2026.	

## Costing overview

The proposal would be expected to decrease the fiscal and underlying cash balances by around \$1.5 million over the 2025-26 Budget forward estimates period (see Table 1). This impact reflects an increase in departmental expenses.

The proposal would be expected to have an impact beyond the 2025-26 Budget forward estimates period. A breakdown of the financial implications (including separate public debt interest (PDI) tables) over the period to 2035-36 is provided at Attachment A.

The Parliamentary Budget Office (PBO) has not made any assessment as to whether the specified funding would be sufficient to meet the objectives of the proposal.

**Table 1: Healthy oceans – sustainable fisheries – publish Commonwealth fisheries survey – Financial implications (\$m)<sup>(a)(b)</sup>**

	2025-26	2026-27	2027-28	2028-29	Total to 2028-29
Fiscal balance	-	-0.5	-0.5	-0.5	-1.5
Underlying cash balance	-	-0.5	-0.5	-0.5	-1.5

(a) A positive number represents an increase in the relevant budget balance; a negative number represents a decrease.

(b) PDI impacts are not included in the totals.

- Indicates nil.

## Key assumptions and methodology

The proposal is capped at a fixed amount, evenly distributed over 4 years from the commencement date. All funding is departmental in nature. We assume that no funds allocated to a given year are left unspent.

Financial implications were rounded consistent with the PBO's rounding rules.<sup>1</sup>
