

Support First Nations Traditional Owners' participation in marine park development and management	
Party:	Australian Greens
<p>Summary of proposal:</p> <p>The proposal would provide \$30 million over 4 years to support First Nations Traditional Owners' participation in marine park development and management, including capacity building and Sea Country planning.</p> <p>The funding would be non-ongoing, distribute funds evenly over 4 years and include departmental funding from within the capped amount.</p> <p>The proposal would start from 1 July 2026.</p>	

Costing overview

The proposal would be expected to decrease the fiscal and underlying cash balances by around \$22.5 million over the 2025-26 Budget forward estimates period (see Table 1). This impact reflects an increase in administered and departmental expenses.

The proposal would not be expected to have an impact beyond the 2025-26 Budget forward estimates period, other than for public debt interest (PDI) costs. A breakdown of the financial implications (including separate PDI tables) over the period to 2035-36 is provided at Attachment A.

The Parliamentary Budget Office (PBO) has not made any assessment as to whether the specified funding would be sufficient to meet the objectives of the proposal.

Table 1: Support First Nations Traditional Owners' participation in marine park development and management – Financial implications (\$m)^{(a)(b)}

	2025-26	2026-27	2027-28	2028-29	Total to 2028-29
Fiscal balance	-	-7.5	-7.5	-7.5	-22.5
Underlying cash balance	-	-7.5	-7.5	-7.5	-22.5

(a) A positive number represents an increase in the relevant budget balance; a negative number represents a decrease.

(b) PDI impacts are not included in the totals.

Key assumptions and methodology

The proposal is capped at a fixed amount, evenly distributed over 4 years from the commencement date. Departmental expenses were estimated based on the cost of administering similar programs and are included within the capped funding amount. Administered expenses are as specified in the proposal, less expected departmental expenses. We assume that no funds allocated to a given year are left unspent.

Financial implications were rounded consistent with the PBO's rounding rules.¹

(a) A positive number for the fiscal balance indicates an increase in revenue or a decrease in expenses or net capital investment in accrual terms. A negative number for the fiscal balance indicates a decrease in revenue or an increase in expenses or net capital investment in accrual terms. A positive number for the underlying cash balance indicates an increase in receipts or a decrease in payments or net capital investment in cash terms. A negative number for the underlying cash balance indicates a decrease in receipts or an increase in payments or net capital investment in cash terms.

- Indicates nil.

(a) As this table is presented as a memorandum item, these figures are not reflected in the totals above. This is consistent with the approach taken in the budget where the budget impact of most measures is presented excluding the impact on PDI. If the reader would like a complete picture of the total aggregate, then these figures would need to be added to the figures above.
