

### **\$30 million to the Tasmanian Government to support the supermarket sector**

Party: Australian Greens

#### Summary of proposal:

The proposal would provide \$30 million in 2025-26 to the Tasmanian Government to help discount retailers in the state, break the supermarket duopoly and cut grocery bills.

The proposal would be non-ongoing and include departmental funding from within the capped amount.

The proposal would start from 1 July 2025.

### Costing overview

The proposal would be expected to decrease the fiscal and underlying cash balances by \$30 million over the 2025-26 Budget forward estimates period (see Table 1). This impact reflects an increase in administered expenses.

The proposal would not be expected to have an impact beyond the 2025-26 Budget forward estimates period, other than for public debt interest (PDI) costs. A breakdown of the financial implications (including separate PDI tables) over the period to 2035-36 is provided at Attachment A.

The Parliamentary Budget Office (PBO) has not made any assessment as to whether the specified funding would be sufficient to meet the objectives of the proposal.

**Table 1: \$30 million to the Tasmanian Government to support the supermarket sector – Financial implications (\$m)<sup>(a)(b)</sup>**

	2025-26	2026-27	2027-28	2028-29	Total to 2028-29
Fiscal balance	-30.0	-	-	-	-30.0
Underlying cash balance	-30.0	-	-	-	-30.0

(a) A positive number represents an increase in the relevant budget balance; a negative number represents a decrease.

(b) PDI impacts are not included in the totals.

- Indicates nil.

### Key assumptions and methodology

The proposal is capped at a fixed amount in 2025-26. Departmental expenses associated with providing funding to the Tasmanian Government are expected to be small and are assumed to be absorbed within existing resources of the relevant department. Administered expenses are as specified. We assume that no funds allocated to a given year are left unspent.

Financial implications were rounded consistent with the PBO's rounding rules.<sup>1</sup>

- (a) As this table is presented as a memorandum item, these figures are not reflected in the totals above. This is consistent with the approach taken in the budget where the budget impact of most measures is presented excluding the impact on PDI. If the reader would like a complete picture of the total aggregate, then these figures would need to be added to the figures above. For further information on government borrowing and financing please refer to the PBO's online budget glossary.<sup>2</sup>
- (b) A positive number for the fiscal balance indicates an increase in revenue or a decrease in expenses or net capital investment in accrual terms. A negative number for the fiscal balance indicates a decrease in revenue or an increase in expenses or net capital investment in accrual terms. A positive number for the underlying cash balance indicates an increase in receipts or a decrease in payments or net capital investment in cash terms. A negative number for the underlying cash balance indicates a decrease in receipts or an increase in payments or net capital investment in cash terms.
