

Climate change and energy - strengthen frontline response of emergency services	
Party:	Australian Greens
<p>Summary of proposal:</p> <p>The proposal would provide \$5 billion over 10 years to support fire and emergency services across the states and territories. Funding would be administered through grants to address difficulties in upgrading equipment, bushfire prevention and land management programs, as well as supporting the hiring and training of new personnel.</p> <p>The proposal would be non-ongoing, distribute funding evenly over 10 years, include additional funding for departmental expenses and start from 1 July 2025.</p>	

## Costing overview

The proposal would be expected to decrease the fiscal and underlying cash balances by around \$2.1 billion over the 2025-26 Budget forward estimates period (see Table 1). This impact reflects an increase in administered and departmental expenses.

The proposal would be expected to have an impact beyond the 2025-26 Budget forward estimates period. A breakdown of the financial implications (including separate public debt interest (PDI) tables) over the period to 2035-36 is provided at Attachment A.

The Parliamentary Budget Office (PBO) has not made any assessment as to whether the specified funding would be sufficient to meet the objectives of the proposal.

**Table 1: Climate change and energy - strengthen frontline response of emergency services – Financial implications (\$m)<sup>(a)(b)</sup>**

	2025-26	2026-27	2027-28	2028-29	Total to 2028-29
Fiscal balance	-525.0	-512.5	-512.5	-512.5	-2,062.5
Underlying cash balance	-525.0	-512.5	-512.5	-512.5	-2,062.5

(a) A positive number represents an increase in the relevant budget balance; a negative number represents a decrease.

(b) PDI impacts are not included in the totals.

## Key assumptions and methodology

The proposal is capped at a fixed amount, evenly distributed over 10 years from the commencement date. Departmental expenses were estimated based on the cost of administering similar programs and are in addition to the capped amount. Administered expenses are as specified in the proposal. We assume that no funds allocated to a given year are left unspent.

Financial implications were rounded consistent with the PBO's rounding rules.<sup>1</sup>

- (a) As this table is presented as a memorandum item, these figures are not reflected in the totals above. This is consistent with the approach taken in the budget where the budget impact of most measures is presented excluding the impact on PDI. If the reader would like a complete picture of the total aggregate, then these figures would need to be added to the figures above.
