

Boosting perpetrator responses including electronic monitoring and ankle bracelets on high-risk perpetrators

Party: The Coalition

Summary of proposal:

The proposal would provide \$8.6 million over 3 years to strengthen action against perpetrators of family and domestic violence. This would include through specialist early and behavioural intervention programs, as well as working with the states and territories to further boost law and order initiatives, such as electronic monitoring and ankle bracelets for high-risk perpetrators.

The funding would be distributed as \$3 million in both 2025-26 and 2026-27 and \$2.6 million in 2027-28.

The proposal would be non-ongoing and start on 1 July 2025.

Costing overview

The proposal would be expected to decrease the fiscal and underlying cash balances by around \$8.6 million over the 2025-26 Budget forward estimates period (see Table 1). This impact reflects an increase in departmental expenses.

The proposal would not be expected to have an impact beyond the 2025-26 Budget forward estimates period, other than for public debt interest (PDI) impacts. A breakdown of the financial implications (including separate PDI tables) over the period to 2035-36 is provided at Attachment A.

The Parliamentary Budget Office (PBO) has not made any assessment as to whether the specified funding would be sufficient to meet the objectives of the proposal.

Table 1: Boosting perpetrator responses including electronic monitoring and ankle bracelets on high-risk perpetrators – Financial implications (\$m)^{(a)(b)}

	2025-26	2026-27	2027-28	2028-29	Total to 2028-29
Fiscal balance	-3.0	-3.0	-2.6	-	-8.6
Underlying cash balance	-3.0	-3.0	-2.6	-	-8.6

(a) A positive number represents an increase in the relevant budget balance; a negative number represents a decrease.

(b) PDI impacts are not included in the totals.

- Indicates nil.

Key assumptions and methodology

The proposal is capped at a fixed amount, distributed over 3 years from the commencement date as specified in the proposal. All funding is departmental in nature. We assume that no funds allocated to a given year are left unspent.

Financial implications were rounded consistent with the PBO's rounding rules.¹

- (a) As this table is presented as a memorandum item, these figures are not reflected in the totals above. This is consistent with the approach taken in the budget where the budget impact of most measures is presented excluding the impact on PDI. If the reader would like a complete picture of the total aggregate, then these figures would need to be added to the figures above.
